PROFILE SUMMARY

I am a motivated and curious engineering graduate with a strong academic background and no backlogs. Having recently completed my graduation, I am actively enhancing my skills in programming languages such as Python, SQL, Frontend technologies and API Integrations along with developing a foundational understanding of data analytics and databases. I am eager to contribute in collaborative, agile environments and thrive in team settings. With a digital-first mindset and a passion for technology, I continuously explore innovative solutions to real-world problems. My adaptability, commitment to learning, and enthusiasm for growth make me a strong fit for fast-paced and learning-driven projects.

Work Experience

Project Associate

LIV Emergency Services Private Limited

06/2025 – Present

- Contributed to the development of a healthcare and emergency services application designed to provide quick access to medical assistance and emergency support.
- Worked on frontend development, creating responsive and user-friendly interfaces to enhance user experience.
- Participated in backend development, API integration, and database management to support application functionality.
- Collaborated with team members to implement new features, troubleshoot issues, and improve application performance.
- Assisted in UI/UX improvements by designing intuitive layouts, icons, and workflows for healthcare-related services.
- Followed software development best practices, including testing, debugging, and version control.

Application Developer (Unpaid)

Ex-Core Industries

05/2024 – 12/2024

- Designed and developed a mobile application that enables users to discover government schemes and benefits based on their eligibility and requirements.
- Created intuitive UI/UX designs in Figma, improving user engagement and accessibility.
- Developed cross-platform mobile applications using Flutter for Android and iOS devices.
- Built backend services using Python and integrated MongoDB and MySQL databases for secure data management and efficient data retrieval.
- Implemented real-time scheme lookup and recommendation features to enhance user experience.
- Collaborated with team members to analyze requirements, develop features, test functionality, and resolve issues.
- Participated in application deployment, maintenance, and performance optimization.

INTERNSHIP

Salesforce Developer Virtual Internship

05/2023 – 07/2023

Completed the Salesforce trailhead modules. Those are Salesforce Fundamentals, Organizational setup, Relationship & Process Automation, Types of flows & Security, VS Code Setup & CLI Setup, Lightning Web Components & API, Apex Specialist Super badge, Developer Super Set Super Badge and Process Automation Super Badge.

Full Stack Development Intern

11/2024 – 04/2025

Completed a Full Stack Development internship at Blackbucks under the APSCHE program, gaining hands-on experience in frontend and backend technologies. Worked with tools like React, Node.js, Django, and MongoDB, focusing on API development, authentication, and deployment. Engaged in weekly sessions and practical tasks to build industry-ready web applications.

EDUCATION

St. Ann's College of Engineering and Technology

2021 – 2025

B. Tech – Electronics and Communication Engineering

Grade : 8/10 CGPA

TECHNICAL SKILLS

- | | | |
|----------------------------------|---|--|
| • Programming Languages | : | C Language, Java, Python |
| • Web & Application Development | : | HTML, CSS, JavaScript, React.js, Django, REST APIs |
| • Databases | : | MYSQL, Mongodb |
| • Tools & Platforms | : | Git, Github, VS code, Figma |
| • Data Analytics & Visualization | : | Power Bi, Microsoft Excel |
| • Microsoft Office Tools | : | PowerPoint, Word, Outlook |
| • Soft Skills | : | Problem Solving, Leadership, Time management, Team Collaboration |
